Tel Aviv, Israel 

PROFILE

Senior SRE / DevOps engineer with **16 years** in production infrastructure and **5+ years leading teams** of up to 6. AWS-first: containers, Terraform, CI/CD and FinOps. Pragmatic and business-oriented: technology is a tool for delivering value. Based in Tel Aviv, authorized to work in Israel.

SKILLS

Cloud	AWS, Azure
Containers	Docker, Kubernetes (EKS), Helm, ECS Fargate
IaC & Config	Terraform, Ansible
CI/CD	GitLab CI (self-hosted), GitHub Actions
Observability	Datadog, Grafana, InfluxDB
FinOps	Cost dashboards, tagging policies
Security & IAM	AWS IAM, SSO, access governance
Languages	Python, Bash, SQL, PL/SQL
Databases	Oracle, PostgreSQL, SQL Server, Couchbase
OS & Tools	Linux, Git, Jira, Slack integrations

LANGUAGES

French	Native
English	Bilingual · TOEIC 960
Hebrew	Learning
Russian	Beginner

EDUCATION

Master of IT Science (MSc)

SUPINFO · 2005–2010

Bachelor's Degree

Literature · 2001–2004

CERTIFICATIONS

	AWS Solutions Architect	Associate
	Azure Solutions Architect	Expert
	Azure Security Engineer	Associate
	AWS AI Practitioner	Foundational

KEY ACHIEVEMENTS

- ▶ Cut AWS spend by €100K per year on a €120K/month, 15+ account AWS Organization through tagging policies, custom cost dashboards and cross-team conventions
- ▶ Ran infrastructure for 65,000 businesses and 9M appointments/month at 99.99% availability
- ▶ Led DevOps teams of up to 6 engineers across France and Tunisia, remotely through COVID-19
- ▶ Built and launched a Web3 product end-to-end as Head of Engineering
- ▶ Six years as a production DBA on terabyte-scale Oracle and PostgreSQL systems

EXPERIENCE

SRE / DevOps Engineer · Planity

Mar 2023 – Sep 2026 · 3y 6m

- ▶ Operated the serverless AWS infrastructure serving 65,000 beauty businesses in 3 countries and 9M appointments/month
- ▶ Built cost attribution for a €1.4M/year AWS estate across 15+ accounts with tagging policies and custom dashboards
- ▶ Deployed self-hosted GitLab on ECS (Terraform, Ansible, Datadog dashboards), keeping every existing CI/CD pipeline running and saving €20K/year in licensing
- ▶ Rolled out Kiro and Claude Enterprise behind company SSO to a 60-engineer tech organization, reducing data-leakage risk and supporting compliance
- ▶ Ran sprint planning, prioritization and boards for an 8-person DevOps team
- ▶ Replaced ad hoc Slack requests with a Jira + Slack intake workflow, making infrastructure requests trackable and cutting coordination overhead

DevOps Team Leader · NeoXam

Mar 2019 – Mar 2023 · 4y

- ▶ Led and mentored a DevOps team of 2–6 engineers: direct reports, performance reviews and career growth
- ▶ Migrated legacy finance applications across multiple product lines to AWS and Azure with Docker, Docker Compose and Helm, from single-node development environments to production Kubernetes clusters
- ▶ Designed and maintained CI/CD pipelines and code quality standards across AWS and Azure

Head of Engineering · Web3 Startup

Jun 2017 – Jan 2019 · 1y 7m

- ▶ Led a team of 2–6 developers; shipped an online art gallery accepting cryptocurrency payments and an exchange platform on AWS (Python backend, GitLab CI/CD)
- ▶ Built custom platforms with token emission and cryptocurrency payment capabilities

Data Architect · ING Direct

Dec 2016 – May 2017 · 5m

- ▶ Designed the indexing strategy for production Oracle databases; introduced Terraform-based infrastructure automation

Production DBA · PriceMinister

Aug 2012 – Nov 2016 · 4y 3m

- ▶ Ran production databases for a national e-commerce platform in a team of 7–8; deployed Couchbase clusters for user session data

Research DBA · Mphasis Wyde

Mar 2011 – Jul 2012 · 1y 4m

- ▶ Led a 3-person team on Oracle tuning and indexing strategy, speeding up the product for large clients (BNP, Bouygues) by orders of magnitude

Support DBA · Société Générale

Jul 2010 – Feb 2011 · 7m

- ▶ Oracle and SQL Server database support and case dispatch

Oracle Technologies Teacher · SUPINFO

Sep 2007 – Jun 2010 · 2y 9m

- ▶ Taught SQL, PL/SQL and data warehousing in France, French overseas territories and China
